9060 / 9065  
Transparent

B4/crystal	
K2/blue	
K3/red	
K4/orange	
K8/green	

**Material**  
Frame: transparent or coloured PMMA.  
Diffusor: polycarbonate.  
9060: electronic energy-saving lamp.

Toobe is the first floor lamp for Kartell, a master key that completes the lamp family. Toobe by Ferruccio Laviani was conceived from the idea that the use of a PMMA extruded tube could, according to length, become either a floor or table lamp. Thanks to an innovative coloring technology, Toobe is the first Kartell product to be "faded" to permit a special light to be diffused within the cylinder. The line is simple and modern. The handle in the lamp body makes the pole functional and easy to move.

	height	diameter Ø
9060	170	20
9065	55	20

packaging	quantity	weight kg.	volume m <sup>3</sup>
9060	1	11,000	0,125
9065	1	3,500	0,047
